

aircharge+

Contactless mobile ordering &
digital table marker solution to
assist with dine-in regulations

AIRCHARGE+ INSTANTLY TURNS EVERY TABLE INTO A SMART TABLE

Introducing our digital table marker solution to assist with new restaurant regulations

AIRCHARGE+ SMART WIRELESS CHARGER

AIRCHARGE+ DIGITAL TABLE MARKER

NEW HARDWARE SOLUTION

Small footprint to fit any table, custom-branded design, aluminium surround for extra durability and a sleek finish to any surface.

NO POWER REQUIRED / NO DRILLING SURFACES

Can be easily and conveniently installed at every table without the need to bring power to the tabletop or drilling holes.

END-TO-END ZERO CONTACT DIGITAL INTERFACE

Allows customers to simply tap the NFC tag or scan the QR code to launch full ordering capabilities and access digital services directly from their own device, without the need to download a third-party app. No menu to touch, no queuing for ordering, no handling cash, minimal interaction with staff

TABLE CHECK-IN & MOBILE ORDERING

NFC tags and QR codes are sequentially programmed with the store location and table/serving zone. The information stored in the NFC tag/QR code can be passed to your website, mobile app or our own mobile ordering system to complete the order.

CUSTOMER ANALYTICS & REPORTING

Gather insightful customer data and learn more about your customers, their dine-in choices and which initiatives generate higher returns for your business.

WHY AIRCHARGE+ ?

NEW RESTAURANT DINE-IN REGULATIONS

SOCIAL DISTANCING

TOUCHING SCREENS /
MENUS

HANDLING CASH & RECEIPTS

REDUCED BUDGET & STAFF

We recognise the impact the new dine-in regulations will be causing to the restaurant operations

- Distancing will continue even after restaurants will reopen.
- Many customers will be afraid and try to limit any contact and interaction with staff, surfaces, cash, etc.
- Many restaurants will be forced to operate on a limited budget and with a reduced number of staff.
